

inocucorTM

GARDEN SOLUTION

Beneficial Microbes

Just dilute and water in for
vigorous, more robust
perennials, annuals,
turf and soil, naturally.

GENERAL DIRECTIONS FOR USE: When used as directed, *Inocucor Garden Solution*[®] is safe for use on all indoor and outdoor plants. For routine care and maintenance, add 3 tablespoons (45ml) to each gallon (4 liters) of water. If using a siphon mixer, dial the setting to 1:100. Well water or collected rain water is preferable to chlorinated water. Apply throughout the growing season to both foliage and soil whenever applying fertilizer or every 30 days, whichever is more frequent. For plants showing stress, add 6 tablespoons (90ml) to each gallon (4 liters) of water and apply weekly.

Inocucor Garden Solution[®] is a proprietary blend of beneficial microbes which help sustain robust plant growth, impart vigor and with regular use, build a friable and rich soil. For more details on using *Inocucor Garden Solution*[®] please go to www.inocucor.com.
